NEBRÁSKANS IN OKLAHOMA. They Are Enjoying Life and Raising

Good Crops.

Cotysula, I. T., Jan. 20.—To the Editor of
Cur Hun: As the readers of Tun Hun in this territory are quite numerous, their many friends in Nebrasia will be glad to learn that we are prospering finely in this new country. Mr. A. Kirkegarde of Omana arcountry. Mr. A. Kirkegarde of Omana arrived last week, and will build on his claim in a few days. C. E. Boakefield has a claim joining town, and has a good house and an orchard of 500 trees, an acre of grapes and a large plantation of berries. The McKinseys, father and three sons, have good prairie claims and are doing well. In fact every Omana settler is well situated, and though we are having a cold winter-hard freezing, but little snow-so far I can learn there has been no distress in the outire territory for want of food and shelter. About half the settlers have frame houses, and the others sod houses and ducents, the latter proving very comfortable in the cold, bleak and piercing winds. A large number of sottlers from Lincoin are well housed on their claims on the west saide of the territory between Kingisher and Reno, Corn, potatoes and all kinds of garden stuff grew excellently last summer, and many of the settlers have a compartly living on their own productions. The soil is universally rich, and people from both north and south are surprised at the remarkable growth of everything that was planted. What was brond, undulating prairie, interspersed with skirts of tunber and clear water brooks last snring is now dotted all think it sam houses and stock size of the homesteads have house upon them and by April nearly every quarter section will be improved. People are passing around every day trying to buy out claimants, but few care to sell, though a large tract of country west of its will soon be open for settlement. Our town, Columbia, is laid out as a strictly government town site, though it was badly managed by its officers during the sammer. A few days ago the mayor and clerk were impeached for misuse of nubile funds and maubordination to the council and new officers ordered elected. It is uncertain what issue will come out of the sale of lots to Omaha people, as the certificates are apparently bogus. As Thomas Burrell stands impeached never laving three of these living here.

Pienner, S. D., Jan. 33.—[Special Telegram to The Ben.]—A special car containing Northwestern officials has been standing in Pierre for two days. They are Chief Eagineer J. E. Rlunt, Superintendent Hellenbeck and others, and they have been visiting Fort Pierre avery day asspecting the milesquare property, ranning the claim lines and such work. From what can be learned it appears that the Northwestern road is now making full preparations to occupy this land in the spring and bridge the river to extend their line through to the fills. What disposition the government will make with the claims of the innerest of settlers and speculators who now occupy the intle square remains to be seen, though government agents of the interior donartment, accompanied by the United States marshal, have been screetly inspecting the premises and gathering notes for a week mat. Trouble is orewing between the actiters and the Indians there now. The latter have begun to cut all the timber along the Had and Missouri rivers and are hatting to to to be land they claim on the square and adjoining tract.
